Portfolio LeetCode GeeksforGeeks HackerRank

SUMMARY

Motivated Computer Science student with hands-on experience in full-stack development using the **MERN stack**. Built multiple real-world projects, including **SaaS platforms**, **AI-powered applications**, and **secure payment systems**. Strong understanding of **RESTful APIs**, **authentication & authorization**, **Docker**, and **database design**. Eager to learn, grow, and contribute to impactful software products.

EDUCATION

- Aditya Engineering College, Surampalem** 2023 – 2026
Bachelor of Technology (B.Tech) in Information Technology
Surampalem, Andhra Pradesh **CGPA: 8.0**
- Swarnandhra College, Narsapuram** 2020 – 2023
CME (Computer Engineering)
Narsapuram, Andhra Pradesh **PERCENTAGE: 77**

SKILLS SUMMARY

- Programming Languages:** Python, C, Java, C++
- Frontend Frameworks:** React.js, Next.js, Tailwind CSS, Bootstrap
- Web Technologies:** HTML5, CSS3, JavaScript (ES6+)
- Databases:** MySQL, PL/SQL, MongoDB
- Version Control:** Git, GitHub
- Tools & Platforms:** Visual Studio Code, Google Colab, Linux
- Core Concepts:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, System Design

EXPERIENCE

- TechnicalHub** Surampalem, Andhra Pradesh
Full Stack Developer Intern Dec 2024 – Jan 2025
 - Built and deployed responsive full-stack web applications using **React.js**, **Node.js**, **Express.js**, and **MongoDB**, improving usability and performance.
 - Developed secure RESTful APIs and implemented **JWT-based authentication** for safe user access and session management.
 - Worked on both frontend and backend modules using **JavaScript**, **HTML**, and **CSS**.
 - Collaborated with team members to debug issues, optimize features, and improve overall code quality.

PROJECTS

-  **RequestHub**  [GitHub] — **MERN Stack (React.js, Node.js, Express.js, MongoDB)**
 - Developed** a role-based permission request system for **Internship**, **Leave**, and **Hackathon approvals** using MERN stack technologies.
 - Implemented** secure authentication and authorization with role-based access for **Users** and **Admins**.
 - Enabled** real-time request tracking, status updates, and admin approval workflows to streamline processes.
 - Integrated** a chatbot using **ChatSimple** to assist users and improve overall user experience.
-  **Mini Social Network Feed**  [GitHub] — **MERN Stack**
 - Developed** a mini social networking platform using **MERN stack** focusing on **relationship management** and **content distribution**.
 - Implemented** advanced data structures like **graphs** for user connections and **trees** for hierarchical comment systems.
 - Designed** intelligent features such as **friend suggestions (BFS)**, **community detection (DFS)**, **feed ranking (priority queues)**, and **timeline ordering (topological sort)**.
 - Utilized React Hooks** and **Axios** for efficient API handling and dynamic real-time updates across the platform.

CERTIFICATIONS

-  **Infosys Springboard: DBMS Part 1 | DBMS Part 2** (Database Fundamentals)
-  **Cisco: Introduction to Networks | JavaScript Essentials 1 | JavaScript Essentials 2** (Networking + JS)
-  **Data Analytics Job Simulation: Data Analytics Job Simulation** (Data Analysis, Visualization, Insights)
-  **Oracle: Oracle SQL Certified Associate** (Relational Databases)

LEADERSHIP & ACHIEVEMENTS

- Completed **150+ DSA problems** on **LeetCode**, demonstrating strong analytical and coding skills.
- Solved **10+ DSA problems** on **GeeksforGeeks**, covering arrays, trees, graphs, and dynamic programming.
- Actively **participated in hackathons**, gaining experience in teamwork, rapid prototyping, and problem-solving.
